SOCIAL WORK—BSW
EQUIPPING HEARTS TO CARE FOR THE HURTIN G.

WHAT IS SOCIAL WORK?
A social worker has a heart for serving others—particularly those who are vulnerable, oppressed or living in poverty. Kuyper's social work program trains and equips you to understand and come alongside individuals, groups and communities—working to meet their basic needs in order to:

- Enhance or restore their capacity for social functioning
- Defend social justice
- Improve societal conditions

SOCIAL WORK AT KUYPER
Kuyper's bachelor of social work (BSW) program provides graduates with professional knowledge and skills within the framework of a biblical world and life view. The program educates and trains students as general practitioners. Working within a holistic, multi-level approach based on professional knowledge, values, skills, concepts, and strategies, a social work generalist can assume a variety of professional roles and work within multiple systems in various settings and with diverse populations. This allows them to play a critical role in God's restoration process of healing relationships, uniting families, empowering communities, developing social welfare policy and establishing social, economic and political justice both nationally and internationally.

WHERE CAN SOCIAL WORKERS PRACTICE?
Graduates with a BSW degree are qualified to work in various fields in both public and private human service agencies. Social workers can practice in a wide range of agencies and settings including, but not limited to:

- Family & Children Services
- Health Care
- Adoption Agencies
- Schools
- Mental Health
- Criminal Justice
- Churches
- Community Development
- International Agencies
- Politics
- Foster Care
- Gerontology
- Residential Treatment
